

MAC Address for Xbox 360

2009-2010 | Millsaps College | Information Technology Services

This documentation will guide you in finding the Wired MAC address for an Xbox 360. This 12-digit code is needed in order to add your device to a list of allowed users in order use the device online on campus.

After you get the MAC address, please send it in an email to helpdesk@millsaps.edu with your request to have your address the network.

Select the *System* area of the Xbox Dashboard. **Select** *Network Settings*.

Select *Edit Settings*.

In *Basic Settings*, check to make sure the *IP Settings* is on *Automatic*.

Select *Additional Settings* | *Advanced Settings*.

At the bottom of this screen there is a heading labeled *Wired MAC Address*. This 12-digit code is your wired MAC address.
